

The **Southern Alberta Collegiate Institute** is a career pathway program offered in collaboration with Lethbridge Polytechnic, Career Transitions, Careers, and Southern Alberta school divisions, providing youth in grades 7-12 with the opportunity to explore Trades, Agriculture, and Health Care.

Building Career Pathways

The E3 Junior High program introduces students to career opportunities and will transition seamlessly into **Dual Credit programming** in high school. This ensures students know how their skills and interests align with industry needs.

What
people
are
saying...

"I hope this project never ends. If I had this when I was in grade nine, I'm not sure I would be a teacher now."

"I am not sure who arranged the field trip to Lethbridge Polytechnic for *Cultivate Your Roots* but my son has never been so excited about his day!"

"My students loved the field trip, their favourite part was the hydroponics, feeding the fish, and getting to take a cucumber home!!"

JUNIOR HIGH
CAREER PROGRAM

The **E3** program provides hands-on experiences and career information to grades 7-9 students, inspiring future thinking and laying the foundation for successful transitions to senior high and post-secondary institutions. Through partnerships with seven school divisions and Lethbridge Polytechnic, we equip students with the basic skills, knowledge, and confidence to thrive in **Agriculture**, **Health Care**, and **Trades**.

OUR GOALS:

- Inspire future thinking.
- Equip students with industry-relevant skills.
- Build confidence for success in various industry sectors.

ACHIEVED THROUGH:

Hands-On Learning

Career Exploration

Career Experts

WE OFFER:

Themed Workshops: Day-long, area-specific sessions designed for classes from any of our 74 partner schools, providing focused, hands-on learning experiences. (For more information, visit our website)

Events: Larger gatherings that bring together students from various schools to explore careers and engage with industry professionals.
